OHSAS 18001:2007

IMPLEMENTATION COURSE (MODULE 1)

COURSE DURATION: 3 DAYS FOR OHSAS 18001:2007

Course Summary:

The implementation course provides the participant with an in-depth level of knowledge on the requirements of OHSAS 18001:2007 standard. Our course is designed for personnel who are responsible for the development and implementation of the Occupational Health and Safety management systems. A practical application of the standard requirements provides the participant with in-depth knowledge regarding the development, implementation and maintenance of the Occupational Health and Safety management systems requirements. The implementation course prepares the participant to understand the requirements for auditing preparation as well as importance of Occupational Health and Safety Management as a tool to ensure compliance with customer requirements and continual improvement. It demonstrates how Occupational Health and Safety management contributes to the day-to-day business operations through the effective application and management of resources.

WHO SHOULD ATTEND:

- Those with the responsibility for implementation of Occupational Health and Safety management systems based on OHSAS 18001:2007 requirements;
- Those with an interest in Occupational Health and Safety management systems especially OHSAS 18001:2007; and
- Those developing Occupational Health and Safety management systems based on OHSAS 18001:2007 requirements.

PRE-REQUISITE:

It is recommended that a minimum educational level of Matric or equivalent NQF level 4 qualification be attained to cope with the content.

OUTCOME:

With the successful completion of this course the participant will be able to:

- Apply the OHSAS 18001:2007 as a management tool;
- Identify the requirements as set by the standard;
- Develop certain documents required by the standard;
- Develop a thorough understanding of the interaction of the various processes as determined by the OHSAS 18001:2007 standard;
- Evaluate certain management systems requirements through the application of the OHSAS 18001:2007 standard clauses; and
- Work with the processes for implementing the Occupational Health and Safety management systems and processes.

SACAS

South African Certification and Auditing Services

HOW WILL I BENEFIT?

- Guarantee continuing compliance with OHSAS 18001:2007 requirements;
- Ensure employees have Occupational Health and Safety management responsibilities and awareness;
- Manage all hazards and risks and maintain and improve a global benchmark in Occupational Health and Safety standards;
- Realise the key importance of Occupational Health and Safety Management in a business operation; and
- Be able to participate in the development of the required documentation for the business based on OHSAS 18001:2007 processes.

COURSE VENUE:

Courses are presented at the SACAS Head Office in Vanderbijlpark, sites in Johannesburg, Durban and Bloemfontein on request as well as at customer sites throughout South Africa as public courses with a minimum of four attendees.

ADDITIONAL INFORMATION:

The maximum number of participants for this course is 15 with a minimum of 4.

- Participants are assessed to both individual and group performance competence levels;
- Attendance for the full duration of the course is required; and
- A prescribed pass rate of 60% for the written test is required to obtain a certificate on completion of this course.

For any training requirements please feel free to do bookings at our training department at training@sacas.co.za or contact Jayne at (+2716) 931 2001.

OHSAS 18001:2007

INTERNAL AND SUPPLIER AUDITOR COURSE (MODULE 2)

COURSE DURATION: 3 DAYS

Course Summary:

Auditing of Occupational Health and Safety management systems forms an important part of the process to demonstrate continual improvement, thus the OHSAS 18001:2007 standard requires that the Occupational Health and Safety management system must be audited on a periodic basis. The Internal Auditor Course is designed for persons to conduct internal audits. The course material is based on sampling methods, interviewing techniques, effective listening skills, compiling non-conformities and value-added report writing. Special emphasis is devoted to clausuring of non-conformances and effective development of corrective action requests. The internal auditor course is designed specifically those individuals responsible for carrying-out internal audits in accordance to OHSAS 18001:2007 stand requirements. This training course is presented at an advanced level and adds value as well as prepares a business for certification by an accredited certification body like SACAS. The course provides participants with opportunity to audit against procedures written for real world applications. Participants are exposed to real life scenarios and are equipped to conduct internal as well as supplier audits in a professional manner. Auditor roles and responsibilities including personal behaviour is also covered as well as the documentation forming part of the internal audit as well as supplier audit process and audit objectives, audit scope and audit criteria.

WHO SHOULD ATTEND:

- Those with the responsibility for internal auditing of Occupational Health and Safety management systems based on OHSAS 18001:2007 requirements;
- Those with an interest in auditing Occupational Health and Safety management systems based on OHSAS 18001:2007 requirements;
- Those developing an Occupational Health and Safety management system based on OHSAS 18001:2007 requirements.

PRE-REQUISITE:

The level of focus and presentation is high and it is therefore requested that participants demonstrate the following:

Successful completion of an OHSAS 18001:2007 Implementation course.

Practical experience in the management of an Occupational Health and Safety Management Systems based on OHSAS 18001:2007 requirements.

SACAS

South African Certification and Auditing Services

OUTCOME:

With the successful completion of this course the participant will be able to:

- Relate to and apply the ISO 19011:2018 requirements for auditing management systems;
- Develop certain documents required by the standard;
- Develop auditing material required to conduct an internal audit;
- Plan and prepare the auditing process;
- Apply the principles of planning, executing, recording and close out of an audited scenario; and
- Develop and implement key documentation to ensure the auditing process is concluded in a professional manner.

HOW WILL I BENEFIT?

- Guarantee continuing compliance with OHSAS 18001:2007 requirements;
- Ensure employees have Occupational Health and Safety management responsibilities and awareness;
- Manage all hazards and risks and maintain and improve a global benchmark in Occupational Health and Safety standards; and
- Be confident that your organisation can rely on OHSAS 18001:2007 competent internal auditors.

COURSE VENUE:

Courses are presented at the SACAS Head Office in Vanderbijlpark, venues in Johannesburg, Durban, and Bloemfontein as well as at customer sites throughout South Africa as public courses with a minimum of four attendees.

ADDITIONAL INFORMATION:

The maximum number of participants for this course is 15 with a minimum of 4.

- Participants are assessed to both individual and group performance competence levels;
- Attendance for the full duration of the course is required;
- A prescribed pass rate of 70% for the written test as well as a practical assignment to be done afterwards at the work place, is required to obtain a certificate on completion of this course.

For any training requirements please feel free to do bookings at our training department at training@sacas.co.za or contact Jayne at (+2716) 931 2001.

OHSAS 18001:2007

LEAD AUDITOR COURSE (MODULE 3)

COURSE DURATION: 5 DAYS

Course Summary:

(This course is a SAATCA registered course (OHSMS 032) and meets the training requirements of those seeking registration as an auditor/lead auditor under the occupational health and safety scheme at SAATCA)

This comprehensive five-day course provides hands-on training to ensure lead auditors thoroughly understand the role of the auditor and lead auditor and to ensure they acquire the expertise to perform audits effectively. This course addresses the principles and practices for effective internal and external audits in accordance with OHSAS 18001:2007, ISO/IEC 17021-1:2015, ISO/IEC 17023:2013 as well as ISO 19011:2018.

Auditing of Occupational Health and Safety management systems as a third party auditor forms an important part of the process to demonstrate conformity to the OHSAS 18001:2007 standard, although the OHSAS 18001:2007 standard only requires internal audits, companies cannot be claimed to be compliant with OHSAS 18001:2007 unless certified by a legitimate accredited certification body whom is a multilateral member of the IAF. The Lead Auditor Course is designed for persons to conduct audits internally or externally or who wants to become a SAATCA registered auditor/lead auditor. The course material is based on sampling methods, interviewing techniques, effective listening skills, compiling non-conformities and value-added report writing. Special emphasis is devoted to clausuring of non-conformance's and effective development of corrective action requests. The lead auditor course is designed specifically for those individuals responsible for carrying-out audits in accordance with OHSAS 18001:2007 standard requirements. This training course is presented at an advanced level and adds value as well as prepares auditors for registration as a SAATCA registered auditor or lead auditor. The course provides participants with the opportunity to audit against procedures written for real world applications.

WHO SHOULD ATTEND:

- Anyone involved with the auditing of OHSAS 18001:2007 Occupational Health and Safety Management Systems such as Occupational Health and Safety Management Representatives, OHSAS 18001 coordinators and Occupational Health and Safety Managers;
- Those with an interest in auditing Occupational Health and Safety management systems based on OHSAS 18001:2007 requirements especially as a third party auditor/lead auditor; and
- Those developing an Occupational Health and Safety management system based on OHSAS 18001:2007 requirements.
